# Making Interoperability Happen

Experience the power of connectivity

Our core business is to provide innovative and interoperable solutions to our customers in five key healthcare segments:

HOSPITALS
Retain 100% of your legacy data and achieve true interoperability

LABORATORIES
Maximize reimbursements and eliminate missing information in orders

AMBULATORY
Freedom to decommission legacy systems, cut costs, and maintain continuity of patient care

PAYER
Meet CMS mandates, support value-based care initiatives, collection of patient data made easy

HIT VENDORS
Meaningful, actionable data from all source applications - securely delivered in one standard format

ELLKAY
Healthcare Data Plumbers
