# TRUSTED PARTNER FOR COMMUNITY HEALTHCARE

## Trusted community healthcare partner

Evident has decades of experience implementing and supporting EHR systems for organizations like yours — hospitals, clinics and practices that serve rural towns and communities everywhere. That’s given us a deep appreciation for the unique challenges you face every day.

From the solutions we provide to the way we support our clients, everything Evident does comes from our deep-seated understanding of rural healthcare. That’s why hundreds of hospitals and thousands of providers have chosen us to help them deliver the highest quality of care to those they serve — their friends, their neighbors and their families who are the heart and soul of their communities.

## Our customers express gains across their organization through their trusted partnership with Evident.

### Chief Executive Officer

“We share the same goals, those of optimized patient care through ensured financial accountability.”

Progressive Acute Care

### Chief Information Officer

“I guess you can’t argue with success when it gets down to it. We have had good success in the past, we don’t expect that to be any different as we move into the future.”

Unity Health

### Nurse Manager

“It’s really important for us to have an engaged, collaborative relationship with our vendor. With CPSI’s Client Success Manager program, we have a specific person to help us navigate through this sea of healthcare change and help us to be successful at every level.”

Pratt Regional Medical Center

### Physician

“The transition to value based purchasing and care is dependent on being able to report on and demonstrate your efficiencies, while decreasing the cost of providing care. Having a partner that allows us to meet those goals in every regard has been crucial.”

Franklin County Memorial Hospital

# THRIVE EHR BUILT FOR TODAY WITH AN EYE FOR TOMORROW

The EHR system you choose today will play a critical role in setting you up for future success. You need a system that goes beyond addressing your current challenges. One that gives you a voice in product development and how you will be supported. That belief is at the heart of Thrive, the comprehensive EHR solution from Evident.

The Thrive difference is in the big picture: coordination of patient care, continuity of information and expert support, all designed around best-practice workflows. Our full EHR solution covers lab, radiology, emergency department, clinic and all ancillary needs while spanning the continuum of care.

#### **One record that unlocks better care**

With increasing demands for positive outcomes, continuity is essential to providing coordinated care. Every patient record must be available as needed in a way that can be understood in any setting. The Thrive EHR uses a single database that results in a single patient record that provides consistent information across every patient encounter, provider and care setting.

*“I’m spending less time clicking buttons and more time delivering medicine that my patients need.”*

Franklin County Memorial Hospital

#### **The right fit — easy to manage, easy to own**

Community healthcare providers need the right technology. Thrive is specifically designed to deliver the capabilities necessary to make your EHR system an integral tool in meeting the challenges of community healthcare. With integrated applications that span all clinical, administrative and back-office functions you have one solution for your entire organization, tailored to your exact requirements. You can choose from an in-house environment with a perpetual software license or a cloud-based monthly fee model, making Thrive easy to maintain your way.

Evident, is a member of the CPSI family of companies that supports the entire healthcare care continuum within a community. With software combined with services that supports long term care through acute care, your community healthcare needs are covered.

# LIKEMIND OUR PROMISE OF PARTNERSHIP

Our unique LikeMind approach impacts the experience you have with the implementation of the Thrive system, customer support and our product development efforts. Because Evident is committed to the values and viewpoints we share with those delivering healthcare in towns and communities everywhere, LikeMind ensures that we work with you towards a common goal.

## Results from the start

Implementation is where success begins. The LikeMind approach goes beyond industry standards and utilizes hundreds of successful implementations to give you the confidence that you've chosen well.

## Personalized support that leave nothing undone

The LikeMind approach goes far beyond installation. Customer support is tailored to your organization and delivered to your organization by a responsive group of specialists that know you, your staff and your procedures.

## Client-driven development

We don't just listen to our clients, we make them part of our teams. When our customers commit to joining our development process, they not only share ideas and attend regular meetings, they also test the product during development to ensure the finished product reflects what is really needed.

*"LikeMind support that is new within Evident is wonderful. I've got the same support team answering my call every time."*

Pratt Regional Medical Center
