SUMMARY

A nationally recognized technology leader with more than 40 years of experience guiding IT organizations. I've held senior roles across applications, infrastructure, cybersecurity, governance, and strategic planning, always with a focus on building strong teams, strengthening resilience, and improving how communities connect with their government. My service on advisory councils and boards, including the Center for Digital Government, NACo technology committees, and the South Florida CIO, reflects my commitment to advancing public-sector innovation. Clear communication and trusted relationships have been central to my work, whether partnering with industry, supporting agencies, or engaging directly with the communities.

EXPERIENCE

- Served as Palm Beach County CIO leading a centralized IT organization of 260 professionals, driving a high-performance culture grounded in innovation, accountability, and measurable results. Directing enterprise governance, technology investment strategy, and long-range financial planning with over an \$80M budget
- Oversee and optimize enterprise infrastructure spanning 1,000+ miles of fiber, 489 facilities, and digital communications supporting 35+ departments and 7,000 employees.
- Champion digital inclusion initiatives that expand connectivity and serve as a nationally recognized model for public-private collaboration.
- Define and execute cybersecurity and digital transformation strategies that strengthen resilience, enhance service delivery, and elevate constituent experience.
- LocalSmart Awards County Executive of the Year – 2025
- Top 5 Finalist for South Florida ORBIE Awards – 2024 and 2025
- Government Technology Top 25 Doers, Dreamers and Drivers – 2023
